To Whom It May Concern:

I am writing to express my support in legalizing the sport of Muay Thai in Connecticut. Being a regular participant in this sport for some time now, I greatly appreciate the positive impact it has had on my life. Legalizing Muay Thai would help to bring awareness to the sport and compel others to look into this rewarding martial arts discipline. Legalizing competition in the state would also be mutually beneficial to both the State of Connecticut as well as the sport of Muay Thai. Competition would help to bring in tourists from other states, boosting revenue from nearby businesses and hotels. Lastly, legalizing Muay Thai would help to create much-needed work & jobs for Connecticut residents.

Thank you for the opportunity to express my opinion.
