Testimony in Support of HB-5583

AN ACT CONCERNING EMERGENCY INTERVENTION BY A POLICE OFFICER WHEN A PERSON SUFFERS AN OVERDOSE.

To allow a police officer to take a person into custody when the officer has reasonable cause to believe that such person is experiencing a drug overdose.

Co-Chairs Horn and Bradley; Vice Chairs Osten, Paolilo; Ranking Members Champagne and Green; and distinguished members of the Public Safety & Security Committee:

My name is Brenda Glazier, I'm part of a growing coalition of your constituents and we thank you for allowing us to submit testimony in support of HB-5583

A friend suggested I share my story with you so that you can better understand what our community is going through as you deliberate these critical proposals - so here goes:

I myself and my family and friends have been effected by this personally. I lost my nephew to an accidental overdose " While in a sober home ". One that is not state accredited, One that didnt have Narcan, one that didn't have a live in house manager , one that didn't care about the well being of their residents .And unfortunately ny nephew laid there dead for approximately 16 hours !!!! Horrible , just horrible. How would you feel if this were your son or daughter maybe best friend . You would be devastated and would want change. We need help from the legislators to help make MANY and I mean Many changes . My great niece now doesn't have a father . The police department just was like oh another OD. Everything I think of this it cripples me, the system is broken ?? and how many more lives are going ro be taken before we fight this fight together and make a change .

I simply ask you to strongly consider taking the following action:

- Review and support HB-5583, as well as a package of similar proposals that our foundation refers to as Brian Cody's Law.*
- Understand that hundreds members affiliated with Brian Cody's Law are in support of this proposal, sponsored by State Representative Carol Hall, from the fifty-ninth assembly district.*
- Consider as well that Brian Cody's Law calls supports any proposal that provides enhanced support systems to help those struggling with opioid addiction, stricter penalties for suppliers of lethal overdoses, better oversight of tracking opioids and waste, and ending safe havens – such as 'trap houses' where numerous overdoses occur on a frequent basis.*
- Please also consider that Brian Cody's law opposes taking addicted people into 'custody', we should not continue the 'lock our way out of this' approach - but rather our organization suggests a 72 hour hold and urges the client be placement into a clinical setting with appropriate supports in place.*
- Read up on the factors that are driving this effort forward on our website BrianCodysLaw.org and take action with us.*

In this last decade, 500,000 Americans lost their lives to opioid use disorder. In 2020 alone, right here in your state, overdose deaths hit historic levels. Again! Thousands of citizens here in Connecticut have died since our organization's initial requests were filed. This simply cannot continue!

Do we have your support?
