*Testimony in Support of HB-5583*

**AN ACT CONCERNING EMERGENCY INTERVENTION BY A POLICE OFFICER WHEN A PERSON SUFFERS AN OVERDOSE.**

*To allow a police officer to take a person into custody when the officer has reasonable cause to believe that such person is experiencing a drug overdose.*

Co-Chairs Horn and Bradley; Vice Chairs Osten, Paolilo; Ranking Members Champagne and Green; and distinguished members of the Public Safety & Security Committee:

*My name is Chirayu Shah, I'm part of a growing coalition of your constituents and we thank you for allowing us to submit testimony in support of HB-5583*

*A friend suggested I share my story with you so that you can better understand what our community is going through as you deliberate these critical proposals - so here goes:*

*The word epidemic is used consistently when the topic of opioids is raised. No matter where you consume your news, TV, Radio, Social Media, Newspaper... doesn't matter the view and description towards opioids is always shared in a very similar viewpoint. Not many will argue that there is a problem involving opioids and opioid addiction, but you rarely hear what is being done about it.*

*This is the first time I am seeing and hearing consistent efforts to not only acknowledge the problem (which is easy), but more importantly what are we as a society going to do to fix it (very hard part). This is why this Law needs approval from lawmakers and also should translate to a nation wide movement and start changing the media from always saying there is an "Opioid Epidemic" to start saying we have an "Opioid Solution" "Opioid Addition Help"!*

*Thank you,*

*Chirayu Shah*

*I simply ask you to strongly consider taking the following action:*

- *Review and support HB-5583, as well as a package of similar proposals that our foundation refers to as Brian Cody's Law.*
- *Understand that hundreds members affiliated with Brian Cody's Law are in support of this proposal, sponsored by State Representative Carol Hall, from the fifty-ninth assembly district.*
- *Consider as well that Brian Cody's Law calls supports any proposal that provides enhanced support systems to help those struggling with opioid addiction, stricter penalties for suppliers of lethal overdoses, better oversight of tracking opioids and waste, and ending safe havens – such as 'trap houses' where numerous overdoses occur on a frequent basis.*
- *Please also consider that Brian Cody's law opposes taking addicted people into 'custody', we should not continue the 'lock our way out of this' approach - but rather our organization suggests a 72 hour hold and urges the client be placement into a clinical setting with appropriate supports in place.*
- *Read up on the factors that are driving this effort forward on our website [BrianCodysLaw.org](http://BrianCodysLaw.org) and take action with us.*

*In this last decade, 500,000 Americans lost their lives to opioid use disorder. In 2020 alone, right here in your state, overdose deaths hit historic levels. Again! Thousands of citizens here in Connecticut have died since our organization's initial requests were filed. This simply cannot continue!*

*Do we have your support?*
