Testimony in Support of HB-5583

AN ACT CONCERNING EMERGENCY INTERVENTION BY A POLICE OFFICER WHEN A PERSON SUFFERS AN OVERDOSE.

To allow a police officer to take a person into custody when the officer has reasonable cause to believe that such person is experiencing a drug overdose.

Co-Chairs Horn and Bradley; Vice Chairs Osten, Paolilo; Ranking Members Champagne and Green; and distinguished members of the Public Safety & Security Committee:

My name is Brittany Waldron, I'm part of a growing coalition of your constituents and we thank you for allowing us to submit testimony in support of HB-5583

A friend suggested I share my story with you so that you can better understand what our community is going through as you deliberate these critical proposals - so here goes:

After using on and off for three years, I had a tragic loss from this disease I lost my best friend someone that's I always talked to that was my brother . That is when it hit me that this isn't a game it is a life or death situation. On September 4th 2019 I checked into a program and it wasn't easy I called 25 programs before I got into a bed. I knew that when I checked in that 30days was just enough to get me back to clean life and good habits I went in and told them that's after my 30days I want to go long term treatment and I am still here in recovery fighting this addiction one day at a time and have a sponsor and go to meetings. Everyday isn't easy I have to fight with the devil everyday to stay sober. Recovery is possible if you work it one day at a time.

I simply ask you to strongly consider taking the following action:

- *Review and support HB-5583, as well as a package of similar proposals that our foundation refers to as Brian Cody's Law.*
- *Understand that hundreds members affiliated with Brian Cody's Law are in support of this proposal, sponsored by State Representative Carol Hall, from the fifty-ninth assembly district.*
- *Consider as well that Brian Cody's Law calls supports any proposal that provides enhanced support systems to help those struggling with opioid addiction, stricter penalties for suppliers of lethal overdoses, better oversight of tracking opioids and waste, and ending safe havens – such as 'trap houses' where numerous overdoses occur on a frequent basis.*
- *Please also consider that Brian Cody's law opposes taking addicted people into 'custody', we should not continue the 'lock our way out of this' approach - but rather our organization suggests a 72 hour hold and urges the client be placement into a clinical setting with appropriate supports in place.*
- *Read up on the factors that are driving this effort forward on our website BrianCodysLaw.org and take action with us.*

In this last decade, 500,000 Americans lost their lives to opioid use disorder. In 2020 alone, right here in your state, overdose deaths hit historic levels. Again! Thousands of citizens here in Connecticut have died since our organization's initial requests were filed. This simply cannot continue!

Do we have your support?
