

Rep. Hon, Senator Bradley and Members of the Public Safety and Security Committee

This is my letter of testimony opposing both Bills #146 and Bill # 570.

I am strongly against any form of gambling, on-line, gaming , online lottery, etc. as well as no building any more Tribal-Resort Casinos in Connecticut.

Our current legislators need to use the "common sense" approach for each and ever resident in the once beautiful State.. not just their greedy need for more money to support an out of balance and overblown budget!

STOP the proposals that prey upon the dementia of our unfortunate residents.

Thank you for your time and for reading my testimony.

Sincerely,

Martha Diamant
