Testimony regarding HB5423

My name is Kristin Distant from Mystic CT.

There are a myriad of reasons to support this bill and no legitimate reason to oppose it. Reducing traffic congestion and by proxy reducing greenhouse emissions, air pollution and wear and tear on our highways are primary. Increased facility of transport by train will benefit the region for commuters, locals and tourists. In particular, supporting the EB workers in this area is of high importance, and supporting their commute will enhance their quality of life.

In a region where we are generally conscious of and proactive in terms of conservation and environmental quality, this project is forward thinking, appropriate in vision and scale, and will improve the quality of life for residents and facilitate visitors.

Please support HB5423

Thank you and thanks for all the hard work you do on our behalf.

Kristin Distant
