

I support SB 127, direct sales of EVs. It will speed adoption of EVs in CT. It is not fair to force CT residents to travel out of state to buy their vehicles, like I had to do. I had to cross state lines into New York to pick up my Tesla Model 3 from Mount Kisco Tesla. We plan on replacing my wife's vehicle with a Tesla in the next year or two, regardless if we have to go to New York or Connecticut – we of course would prefer to stay in Connecticut.

Many thanks,
Peter Wagner
