(2) A document in which the insured consents to the release of the insured's medical records to a provider, broker or insurance producer, and, if the policy was issued less than two years from the date of application for a settlement contract, to the insurance company that issued the policy.

(l) Each broker shall disclose to the owner anything of value paid or given to such broker in connection with a life settlement contract concerning the owner.

(m) No person at any time prior to, or at the time of, the application for or issuance of a policy, or during a two-year period commencing with the date of issuance of the policy, shall enter into a life settlement contract regardless of the date the compensation is to be provided and regardless of the date the assignment, transfer, sale, devise, bequest or surrender of the policy is to occur. The copies shall be accompanied by a letter of attestation from the provider that the copies are true and correct copies of the documents received by the provider. Nothing in this section shall prohibit an insurer from exercising its right to contest the validity of any policy.

(o) If, at the time the provider submits a request to the insurer to effect the transfer of the policy to the provider, the provider submits a copy of independent evidence of subparagraph (A) of subdivision (2) of subsection (m) of this section, such copy shall be deemed to establish that the settlement contract satisfies the requirements of this section.

Sec. 8. Section 19a-36i of the general statutes is repealed and the following is substituted in lieu thereof (*Effective from passage*):

(a) No person, firm or corporation shall operate or maintain any food establishment where food or beverages are served or sold to the public in any town, city or borough without obtaining a valid permit or license to operate from the director of health of such town, city or borough, in a form and manner prescribed by the director of health. The director of health shall issue a permit [or license] to operate a food establishment upon receipt of an application if the food establishment meets the requirements of this section. All food establishments shall comply with the food code.

(b) All food establishments shall be inspected by a certified food inspector in a form and manner prescribed by the commissioner. The Commissioner of Public Health may, in consultation

with the Commissioner of Consumer Protection, grant a variance for the requirements of the food code if the Commissioner of Public Health determines that such variance would not result in a health hazard or nuisance.

(c) No permit to operate a food establishment shall be issued by a director of health unless the applicant has provided the director of health with proof of registration with the department and a written application for a permit in a form and manner prescribed by the department. Temporary food establishments and certified farmers' markets, as defined in section 22-6r, shall be exempt from registering with the Department of Public Health.

(d) Each class 2 food establishment, class 3 food establishment and class 4 food establishment shall employ a certified food protection manager. No person shall serve as a certified food protection manager unless such person has satisfactorily passed a test as part of a food protection manager certification program that is evaluated and approved by an accrediting agency recognized by the Conference for Food Protection as conforming to its standards for accreditation of food protection manager certification programs. A certified food inspector shall verify that the food protection manager is certified upon inspection of the food establishment. The owner or manager of the food service establishment shall designate an alternate person or persons to be in charge at all times when the certified food protection manager cannot be present. The alternate person or persons in charge shall be responsible for ensuring the following: (1) All employees are in compliance with the requirements of this section; (2) foods are safely prepared in accordance with the requirements of the food code; (3) emergencies are managed properly; (4) a food inspector is admitted into the food establishment upon request; and (5) he or she receives and signs inspection reports.

(e) The commissioner shall collaborate with the directors of health to develop a process that allows for the reciprocal licensing of an itinerant food vending establishment that has obtained a valid permit or license under subsection (a) of this section and seeks to operate as an itinerant food vending establishment in another town, city or borough. Not later than [January 1, 2019] December 1, 2021, the commissioner shall submit a report, in accordance with the provisions of section 11-4a, to the joint standing committee of the General Assembly having cognizance of matters relating to public health, of the process developed pursuant to this subsection. Not later than [February 1, 2019] January 1, 2022, the commissioner and each director of health shall implement such process.

Sec. 9. (*Effective from passage*) (a) The Department of Mental Health and Addiction Services shall convene, within available appropriations, a working group, which shall include members of the joint standing committee of the General Assembly having cognizance of matters relating to public health, to study the health benefits of psilocybin. Such study shall include, but need not be limited to, an examination of whether the use of psilocybin by a person under the direction of a health care provider may be beneficial to the person's physical or mental well-being. As used in this subsection, "psilocybin" means the chemical compound obtained from certain types of hallucinogenic mushrooms that grow naturally in regions of Europe, South America, Mexico and the United States.

(b) Not later than January 1, 2022, the working group shall submit a report on its findings and recommendations to the joint standing committee of the General Assembly having cognizance of matters relating to public health, in accordance with the provisions of section 11-4a of the general statutes.
