Table of Grants to Municipalities

Table 1, prepared by the Office of Fiscal Analysis, briefly describes select state grants to municipalities, organized by their implementing agency. For each grant, the table provides the grant title, statutory citation, grant type (i.e., mandatory or discretionary), program description, factors or formulas used to determine the amount awarded or disbursed, last fiscal year each grant was funded, and amount funded. Generally, mandatory grants are related to a court order or federal requirement; all other grants are discretionary.

Of the 41 grant programs listed, 32 received funding for FY 22.
