

Good morning

My name is Damion Fragoso of Stamford Ct. I have real concern as i live in what is mainly a multifamily zone that we will great stress the parking issue that I live with daily. Do to the over capacity of multifamily residences in the area often at times there is not street parking to have a single visitor to your home. This is compounded by the allowance of work/commercial vehicles. What assurances can be made that you will not inundated areas with new homes and what stop measures will be put in place.
