

Statement in SUPPORT of S.B. 127, An Act Concerning the Sale of Electric Vehicles in the State

TRANSPORTATION COMMITTEE

FEBRUARY 19, 2021

As a Connecticut voter concerned with our leadership in the area of EV adoption, I respectfully urge the Transportation Committee to vote in favor of SB 127. With the latest federal administration's push for greener alternatives to energy, a rise in the popularity of greener technology and a worldwide push for adoption of greener technology, it would be wise for Connecticut to stay ahead of the trend in adoption of EV technology by making acquisition and maintenance of EVs easier to its residents. As others have likely already provided, Tesla and hopefully future EV competitors are quickly becoming popular not just in CT but across the country. By allowing sales in CT we make it easier for our residents to adopt and maintain this technology.

Thank you,

Andrew Warzocha
