

Re: An Act Concerning Oversight and Transparency at the Connecticut Port Authority. SB, 241.

To Whom it May Concern,

I am very concerned about the questionable practices and negative press surrounding the Port Authority. The agency has been mired in mismanagement, cronyism and possibly down right corruption for too long. It's critical that the Legislature act immediately to pass this bill and shine a very bright light on the Port Authority. I also whole heartly support the Port Authority being disbanded and move the responsibilities to the DOT.

Thank you,
