Grand Total	158,603,274	234,694,257	292,908,211	298,307,529

Notes:

- The SERS impact will not be recognized until FY 24.
- Additional Items are not included in this table.
- FY 23 figures reflect 27 pay periods. Normally there are 26 pay periods in a fiscal year, however, every 11 years there is an additional pay period.

Wage Increases - Employees will receive a General Wage Increase (GWI) of 2.5% in each of FY 22 (retroactive to July 1, 2021), FY 23 and FY 24. Employees

will receive an Annual Increment in each of FY 22 (retroactive to July 1, 2021), FY 23, and FY 24. The last year of the agreement, FY 25, is a wage reopener. The state and the union may negotiate, no sooner than January 1, 2024, the FY 25 GWI and AI.

Special Lump Sum Payment – Retroactive to July 1, 2021 (FY 22) eligible full-time employees will receive a special lump sum payment of \$2,500. Part-time employees will receive a pro-rated payment. Eligible employees include any active employee in the bargaining unit as of March 31, 2022. Effective July 1, 2022 (FY 23) active, full-time employees will receive a special lump sum payment of \$1,000. Part-time employees will receive a pro-rated payment. It is estimated that 46,237 All-Funds full-time and part-time union members are eligible for these payments (with 26,630 being in the General Fund).

Fringe Benefits – Social Security, Medicare, unemployment, and retiree health related fringe benefit costs will be incurred based on the wage related provisions negotiated in the contract. The social security rate is 7.65% of salary. The unemployment rate is 0.15% of salary. The state contribution towards retiree health is 3%.

Active Employee and Retiree Health Care - The agreement establishes a Voluntary Specialty Drug Discount Program called Prudent Rx. Beginning July 1, 2022, all active employees and non-Medicare retirees will be automatically enrolled in the program. Members may opt out of the program during open enrollment, beginning with the May 2022 open enrollment by filling out an available form.

Members enrolled in the program will also be: 1) enrolled in the specialty management program, which ensures appropriate use of specialty drugs; 2) subject to a specialty formulary; and 3) offered a limited specialty pharmacy network with \$0 cost share for all specialty medications. Enrollees currently utilizing specialty drugs will not be subject to the specialty management review for current prescriptions. This provision is estimated to save \$21.5 million (All Funds) and \$16 million (General Fund) on an annualized basis beginning in FY 24 when it is built into the premiums.

Impact to Retirement – Employees covered by this contract are members of the State Employees' Retirement System (SERS). The pension impact of the wage related provisions assume an average normal cost SERS rate of 4.10%. The increased costs to SERS will not be recognized in the state's actuarially

determined employer contributions (ADEC) until FY 24, as the FY 23 contribution is set based on the June 30, 2021 actuarial valuation.

Funding Availability – The current balance of the General Fund Reserve for Salary Adjustments account is \$149.8 million. Factoring in a deficiency appropriation of \$224.1 million in sHB 5036 (the deficiency bill), an appropriation of \$161.7 million and carryforwards of \$75 million in sHB 5037 (the revised FY 23 budget bill), both favorably reported by the Appropriations Committee, there is adequate funding in the Reserve for Salary Adjustment account to cover the FY 22 and FY 23 General Fund costs associated with this agreement.

Member Overview – There are approximately 46,237 All Funds union employees covered by this agreement; of this amount 26,630 are in the General Fund. These figures include both full-time and part-time employees.
