Explanation

The amendment, which specifies that any unemployment insurance benefits allowed pursuant to the bill be net of any benefits received from a labor union or employer during the labor dispute, could reduce or eliminate the potential cost and revenue gain to the Unemployment Insurance (UI) Trust Fund identified in the fiscal note on the underlying bill. The impact is dependent on: 1) the amount of gross UI benefits per affected employee, and 2) the existence and amount of any labor union or employer benefits received during the labor dispute.

The preceding Fiscal Impact statement is prepared for the benefit of the members of the General Assembly, solely for the purposes of information, summarization and explanation and does not represent the intent of the General Assembly or either chamber thereof for any purpose.
