Issue

This report provides statistics on the disposition of firearms-related offenses in Connecticut for fiscal years (FY) 2013 through 2021. (It updates OLR Report [2020-R-0088](#) by adding case outcomes for FYs 20 and 21.) **This report has been updated by OLR Report [2023-R-0110](#).**

Summary

Using information provided by the Judicial Branch, we (1) identified about 60 firearms-related offenses and (2) compiled statistics on the disposition of these offenses for FYs 2013 through 2021. We did not include hunting offenses. The offenses range from permit-related violations to committing manslaughter with a firearm.

Background – Understanding the Statistics

The data shown in this report is the disposition of individual charges by the courts each fiscal year, not individual cases. An individual may (1) be charged with multiple offenses in the same case and (2) have multiple charges and cases during a given year. The data shows initial charges for crimes and does not include any substitute charges that prosecutors might add later in a case. The data does not show the total arrests made in each year. For each year it shows the total outcomes for charges, including those related to arrests from previous years.

*This report has been revised to reflect fiscal, rather than calendar, year data for 2020 and 2021. The latter was inadvertently provided to OLR.

Offenses can be disposed of in several ways. In some cases, an initial charge may be dismissed when a substitute charge is added. In many cases, an individual is charged with multiple offenses in the same case and some charges will be dismissed or nolle (i.e., the prosecutor declines to prosecute the charge) as part of an agreement to plead guilty to other charges. This report does not include data on individual cases and the impact plea bargaining has on charges. In addition, some charges may be dismissed when an offender satisfactorily completes a diversionary program. For example, an offender who is allowed to participate in accelerated rehabilitation and successfully completes the program can have his or her charges dismissed ([CGS § 54-56e](#)).

In this data, “dismissed” includes discharged charges and “not guilty” includes not guilty by mental disease or defect.

Statistics on Firearms – Related Offenses

Table 1 provides the number of firearms-related offenses disposed of in fiscal years 2013 through 2021 and the various case outcomes, listed in order by statutory citation. For each statute, the table only includes those fiscal years in which a charge was disposed of. Statutes for which there were no dispositions during this time period are excluded (e.g., [CGS § 53-202j](#)).
