

## State-Mandated Health Insurance Benefits

By: Janet Kaminski Leduc, Chief Attorney  
September 6, 2022 | 2022-R-0191

### Issue

This report lists and briefly summarizes Connecticut's mandated health insurance benefits for fully insured commercial health insurance policies or plans. It updates OLR Report [2021-R-0218](#).

### Summary

A mandated health insurance benefit is a state requirement that a fully insured commercial health insurance policy or plan cover a specified benefit or service.

In Connecticut, most mandates apply to both individual and group health insurance policies, including HMO plans. However, due to the federal Employee Retirement Income Security Act (ERISA), state benefit mandates generally do not apply to self-insured health plans.

Although the state employee health insurance plan is self-insured, in practice it incorporates all state mandated benefits and services.

In 2022, the legislature enacted the following health insurance benefit mandates:

<a href="#">PA 21-9</a> , §§ 3-5  Amended by <a href="#">PA 22-81</a> , §§ 35-37	Telehealth Services	Both	Effective until June 30, 2024, policies must cover services provided through telehealth to the extent that they cover them through in person visits.  Carriers cannot (1) exclude coverage for a telehealth platform selected by an in-network provider or (2) reduce reimbursement to a provider because services are provided through telehealth instead of in person.
<a href="#">38a-504(a)&amp;(b)</a> <a href="#">38a-542(a)&amp;(b)</a>	Tumors and Leukemia and Wigs for Chemotherapy Patients	Both	Surgical removal of tumors and treatment of leukemia, including outpatient chemotherapy, reconstructive surgery, non-dental prosthesis, surgical removal of breasts due to tumors, and a wig if prescribed by a licensed oncologist for a patient suffering hair loss from chemotherapy. Annual coverage must be at least \$500 for surgical tumor removal, \$500 for reconstructive surgery, \$500 for outpatient chemotherapy, \$350 for a wig, and \$300 for prosthesis, except for surgical removal of breasts due to tumors, the prosthesis benefit must be at least \$300 for each breast removed.

\* Notes:

1. Some mandates require that services be “medically necessary.” State law specifies the definition of “medically necessary” that policies must include (see [CGS §§ 38a-482a](#) and [38a-513c](#)).
2. Section 2711 of the ACA prohibits annual dollar limits on essential health benefits. The prohibition preempts Connecticut’s statutory annual dollar limits for any mandated benefit that is part of Connecticut’s essential health benefit package. For more information, see the Connecticut Insurance Department’s Bulletins [HC-90-14-2](#) (March 18, 2014) and [HC-99](#) (August 20, 2014).
3. Section 1557 of the ACA prohibits discrimination in benefit design based on age. For example, age-based restrictions for infertility treatment are not permitted. For more information, see the Connecticut Insurance Department’s Bulletin [HC-104](#) (August 13, 2015).
