SB-952

AN ACT CONCERNING PAROLE ELIGIBILITY FOR AN
INDIVIDUAL SERVING A LENGTHY SENTENCE FOR A CRIME
COMMITTED BEFORE THE INDIVIDUAL REACHED THE AGE OF
TWENTY-FIVE.

AMENDMENT

LCO No.: 7587

File Copy No.: 508

Senate Calendar No.: 304

OFA Fiscal Note

Potential Cost

The amendment restricts who is eligible for parole when committing a crime under the age of twenty-one resulting in a potential marginal cost to the Department of Correction to the extent that fewer inmates are granted parole. On average, the annual marginal cost to the state for incarcerating an offender is \$2,500.¹

The preceding Fiscal Impact statement is prepared for the benefit of the members of the General Assembly, solely for the purposes of information, summarization and explanation and does not represent the intent of the General Assembly or either chamber thereof for any purpose. In general, fiscal impacts are based upon a variety of informational sources, including the analyst's professional knowledge. Whenever applicable, agency data is consulted as part of the analysis, however final products do not necessarily reflect an assessment from any specific department.

¹ Inmate marginal cost is based on increased consumables (e.g. food, clothing, water, sewage, living supplies, etc.). This does not include a change in staffing costs or utility expenses because these would only be realized if a unit or facility opened.
