General Comments

Testimony:

My name is Josiah Schlee, I am a medical cannabis patient who resides in Simsbury CT.

I am hear to voice opposition against HJ0034 - Resolution Concerning Certain Witchcraft Convictions; we currently have a bill HB06787 on the table regarding the Prosecution Of Cannabis Related Cases and Modifications. We need to focus on getting people out of jail for cannabis, while the state profits from the plant as we speak; let's focus on exoneration for people who are in prison now, not people who died 200 years ago.

I strongly Support 1060, 6714 in support of the protection and welfare of animals.

I strongly Support HB 6734 in promotion of less incarceration for benign plants or fungi with proven medical benefits.

I strongly Support HB 6787 as cannabis is legal and this bill, reminding prosecutors to follow the law is just a sad example of how little the state cares for its people, you need to put out a bill to remind prosecutors to follow the law, that is just sad it had to be done in my opinion.

Thank you for your time, Josiah Schlee
