April 23, 2024

CORRECTION

To Fiscal Note on LCO No. 4116
sSB-395, File No. 264

AN ACT CONCERNING THE REPORTING OF MEDICAL DEBT.

The fiscal note for the amendment incorrectly stated the timing of the potential revenue impact to the Connecticut Health Insurance Exchange (“exchange”) as beginning in FY 26. Because the exchange’s marketplace assessment is based on individual and small group premium data that is two years in arrears and the health benefit plans authorized by the bill can be offered beginning April 1, 2025, the amendment results in a potential revenue impact to the exchange beginning in FY 27 and annually thereafter.
