103 prioritized discretionary infrastructure funding, provided such
104 community meets the eligibility criteria for the discretionary
105 infrastructure funding. Any funding provided on a priority basis
106 pursuant to this section shall be used exclusively for the development,

107 improvement, expansion, management or maintenance of
108 improvements located in a transit-oriented district. To receive such
109 funding on a priority basis, any such community, or any municipality
110 that is not a qualifying transit-oriented community but has adopted a
111 resolution pursuant to subsection (c) of this section, shall submit an
112 application for such funding to the secretary in a form developed by the
113 secretary. The secretary shall make recommendations to the state
114 agency responsible for administering such funding and, if priority
115 funding is permitted for such funding, such agency may prioritize any
116 qualifying transit-oriented community or municipality that has adopted
117 such a resolution for the receipt of such funding over any municipality
118 that is not a qualifying transit-oriented community or that has not
119 adopted such a resolution, based on the secretary's recommendations.
120 Nothing in this subsection shall be construed to limit the use of funding
121 received pursuant to this section if the use of such funding to improve,
122 expand, manage or maintain real property within a transit-oriented
123 district also benefits real property located outside of a transit-oriented
124 district.

125 (c) Any municipality that is not a qualifying transit-oriented
126 community shall be eligible for discretionary infrastructure funding on
127 a priority basis pursuant to this section if the legislative body of the
128 municipality adopts a resolution stating that such municipality intends
129 to enact zoning regulations that enable such municipality to become a
130 qualifying transit-oriented community. Such municipality shall enact
131 such zoning regulations not later than eighteen months after the
132 adoption of such resolution. If such municipality does not enact such
133 regulations within eighteen months after the adoption of such
134 resolution, unless the secretary grants an extension to such municipality
135 at the secretary's discretion, such municipality shall return any
136 discretionary infrastructure funding provided to such municipality on
137 a priority basis pursuant to this section and such municipality shall be
138 ineligible for discretionary infrastructure funding on a priority basis
139 until such municipality enacts zoning regulations that enable the
140 municipality to become a qualifying transit-oriented community.

141 Nothing in this section shall be construed to make a municipality that is
142 not a qualifying transit-oriented community ineligible for discretionary
143 infrastructure funding.

144 (d) The zoning commission of the municipality shall consult with the
145 inland wetlands agency of the municipality to establish the boundaries
146 of any transit-oriented district within the municipality. If any portion of
147 any such proposed district is located in an area over which such agency
148 exercises its authority, such commission shall collaborate with such
149 agency to determine whether any portion of such proposed district shall
150 allow for the as-of-right development of middle housing and mixed-use
151 developments.

152 (e) In determining whether a transit-oriented district is of reasonable
153 size, the secretary, or a consultant engaged by the secretary, in
154 consultation with the zoning commission of the municipality, shall (1)
155 determine whether the area of such district is adequate to support
156 greater density of development in an equitable manner, as determined
157 by the secretary, or a consultant engaged by the secretary, considering
158 the geographic characteristics of the municipality; (2) consider
159 municipal and regional housing needs; and (3) not require the inclusion
160 of the following lands in any such district: (A) Special flood hazard areas
161 designated on a flood insurance rate map published by the National
162 Flood Insurance Program, (B) wetlands, as defined in section 22a-29 of
163 the general statutes, (C) land designated for use as a public park, (D)
164 land subject to conservation or preservation restrictions, as defined in
165 section 47-42a of the general statutes, (E) coastal resources, as defined in
166 section 22a-93 of the general statutes, (F) areas necessary for the
167 protection of drinking water supplies, and (G) areas designated as likely
168 to be inundated during a thirty-year flood event by the Marine Sciences
169 Division of The University of Connecticut pursuant to the division's
170 responsibilities to conduct sea level change scenarios pursuant to
171 subsection (b) of section 25-68o of the general statutes. If deemed
172 necessary by the zoning commission to determine whether a transit-
173 oriented district is of reasonable size, such commission shall consult
174 with the inland wetlands agency of the municipality and any other

175 municipal agency deemed necessary by such commission to determine
176 whether such district is of reasonable size.

177 (f) Any qualifying transit-oriented community shall allow the
178 following developments as of right in any transit-oriented district: (1)
179 Middle housing developments; (2) developments that contain ten or
180 more dwelling units where not less than thirty per cent of such units
181 qualify as a set-aside development pursuant to section 8-30g of the
182 general statutes; and (3) developments on land owned by (A) the
183 municipality in which such land is located, (B) the state, (C) the public
184 housing authority of the municipality in which such district is located,
185 (D) any not-for-profit entity, and (E) any religious organization, as
186 defined in section 49-31k of the general statutes, if such development is
187 composed entirely of units that are subject to a deed restriction that
188 requires, for not less than forty years after the initial occupation of the
189 proposed development, that such units be sold or rented at, or below, a
190 cost in rent or mortgage payments equivalent to not more than thirty
191 per cent of the annual income of individuals and families earning sixty
192 per cent of the median income of the state or the area median income as
193 determined by the United States Department of Housing and Urban
194 Development, whichever is less. Notwithstanding the provisions of this
195 subsection, if a proposed development is required to have a public
196 hearing by the inland wetlands agency of the municipality, such
197 proposed development must receive such public hearing prior to such
198 development's approval.

199 (g) Each qualifying transit-oriented community shall require that any
200 proposed development within any transit-oriented district that contains
201 ten or more dwelling units that are not allowed as of right under
202 subsection (f) of this section be subject to (1) a deed restriction that
203 requires, for not less than forty years after the initial occupation of the
204 proposed development, that a percentage of dwelling units, as set forth
205 in subsection (h) of this section, be sold or rented at, or below, a cost in
206 rent or mortgage payments equivalent to not more than thirty per cent
207 of the annual income of individuals and families earning sixty per cent
208 of the median income of the state or the area median income as

209 determined by the United States Department of Housing and Urban
210 Development, whichever is less; or (2) a contribution agreement
211 pursuant to subsection (i) of this section.

212 (h) The percentage of deed-restricted dwelling units required
213 pursuant to subdivision (1) of subsection (g) of this section shall be
214 determined based upon sales market typologies as described in the most
215 recent Connecticut Housing Finance Authority Housing Needs
216 Assessment:

217 (1) Fifteen per cent for any municipality designated High
218 Opportunity/Heating Market;

219 (2) Fifteen per cent for any municipality designated High
220 Opportunity/Cooling Market;

221 (3) Ten per cent for any municipality designated Low
222 Opportunity/Heating Market; and

223 (4) Five per cent for any municipality designated Low
224 Opportunity/Cooling Market.

225 (i) Any qualifying transit-oriented community may establish a fund
226 into which the developer of a proposed development that is not allowed
227 as of right under subsection (f) of this section may contribute funds in
228 lieu of granting a deed restriction required pursuant to subdivision (1)
229 of subsection (g) of this section. The amount and duration of such
230 contributions shall be determined by the secretary and any contribution
231 agreement entered into pursuant to this subsection shall be approved
232 by the secretary. Any municipality that establishes a fund pursuant to
233 this subsection shall utilize the proceeds of such fund solely to develop
234 affordable housing in the municipality.

235 (j) The secretary, or a consultant engaged by the secretary, shall
236 determine any municipality's compliance with the provisions of this
237 section. The secretary may consult with the Commissioner of Housing
238 to determine such compliance. Any municipality that is not a qualifying

239 rapid transit community or qualifying bus transit community may be
240 deemed a qualifying transit-oriented community if the secretary, or a
241 consultant engaged by the secretary, determines that such municipality
242 has adopted a transit-oriented district that contains any rapid transit
243 station or regular bus service station and is of a reasonable size on or
244 before October 1, 2025.

245 (k) Each qualifying transit-oriented community shall be eligible for
246 additional funding pursuant to any program administered by the
247 secretary if such community implements additional zoning criteria,
248 including, but not limited to, higher density development, greater
249 affordability of housing units than is required by subsection (h) of this
250 section, the development of public land or public housing, the
251 implementation of programs to encourage homeownership
252 opportunities within such community and any additional criteria
253 determined by the secretary.

254 (l) No qualifying transit-oriented community shall adopt regulations
255 concerning any transit-oriented district that conflict with any guidelines
256 adopted by the secretary concerning parking requirements, lot size, lot
257 coverage, setback requirements, floor area ratio, height restrictions,
258 inclusionary zoning requirements, development impact fees or other
259 guidelines adopted by the secretary concerning the development of
260 housing in any such district, unless the secretary, in collaboration with
261 the qualifying transit-oriented community, approves such conflicting
262 regulations based on local factors identified by such community.

263 (m) Notwithstanding the provisions of subsection (b) of this section,
264 any qualifying transit-oriented community with one or more transit-
265 oriented districts that are located in priority funding areas, as defined in
266 section 16a-35c of the general statutes, shall be awarded discretionary
267 infrastructure funding by the agency administering any such funding at
268 a higher priority than a qualifying transit-oriented community without
269 such district located in such funding areas.

270 Sec. 3. (NEW) (*Effective from passage*) (a) There is established an

271 interagency council on housing development to advise and assist the
