

Veterans Property Tax Exemptions by Town: Municipal-Option Exemptions

Issue

According to the results of an OLR survey of Connecticut towns, what municipal-option property tax exemptions do municipalities provide to veterans?

For additional information on this subject, please see the following OLR reports:

- Veterans Property Tax Exemptions by Town: State Mandated Exemptions ([2024-R-0004](#)) and
- Veterans Property Tax Exemptions by Town: Total Benefit Amounts & Recipients ([2024-R-0020](#))

Additionally, OLR Report [2023-R-0175](#) provides information on the eligibility criteria for municipal option exemptions as well as state-mandated exemptions.

Summary

In addition to exemptions towns must provide to veterans (commonly referred to as “state-mandated exemptions”), state law allows towns to grant additional property tax exemptions to certain veterans (or “municipal-option exemptions”). Exemptions are a reduction in a property’s assessed value on which taxes are owed; they are not credits against the total amount owed.

In June 2023, the Office of Legislative Research (OLR) sent a survey to municipal assessors asking them to (1) identify the municipal-option exemptions their town offers and (2) for exemptions that municipalities have some discretion over, provide the exemption amount and any income eligibility limits. Of the state’s 169 towns, 117 responded to the survey. This report summarizes their responses and the municipal-option exemptions each respondent provides.

An individual’s eligibility for an exemption is often contingent on the veteran’s qualifying factors (e.g., if he or she has qualifying wartime service or disabilities) and income level. With certain exceptions, exemptions based on a veteran’s income level use a statutorily-set threshold that the Office of Policy and Management (OPM) annually updates to reflect the Social Security Administration’s cost-of-living adjustments ([CGS § 12-81i](#)). [OPM’s Question and Answer Booklet](#) for Tax Relief Programs provides additional information.

OPM-Set Income Threshold

For 2023, the income thresholds are based on 2022 income and as follows:

- \$40,300 for individuals
- \$49,100 for married with joint income

The law requires municipalities to increase certain exemption amounts if a revaluation results in a grand list increase of a certain amount (see Increase in Exemption Amounts After a Revaluation section below and OLR Report [2024-R-0004](#)) ([CGS § 12-62g](#)).

Data in This Report

We have edited the data to correct any clear errors or misstatements if possible, but have otherwise included the responses as reported by the municipalities. For questions about a specific town, contact your town assessor.

OLR Survey

Table 1 lists the 117 municipalities that responded to the survey and, thus, whose responses are included in this report. For each municipal-option exemption, Table 2 provides the number of towns that reported offering it as well as the report page that includes additional information on it.

Exemption for Wartime Service and 30-Year Retirees

Exemption Description

Under state law, municipalities may provide an additional property tax exemption to wartime veterans and 30-year retirees who qualify for the state-mandated one. Generally, the state-mandated exemption must be provided to veterans who (1) have qualifying wartime service or (2) retired from the U.S. Armed Forces after 30 years of service because they reached the law's prescribed age limit or suffered from a mental or physical disability ([CGS § 12-81\(19\)](#)).

If a veteran qualifies for the mandated exemption, municipalities may also exempt up to \$20,000 or 10% of a property's assessed value for veterans whose incomes are below a set threshold. Municipalities set the income threshold, which must be equal to or higher than the OPM-set one (see Summary) ([CGS § 12-81f\(a\)](#)).

Municipal Adoption

Of the 117 towns that responded to the survey, 49 indicated they provide an additional exemption for wartime and 30-year retired veterans. Table 3 lists the exemption amounts and number of

towns that said they provided each amount. The most commonly provided additional amount was \$10,000. Table 4 provides each town’s exemption amount and income thresholds.

*Ledyard reported having a two-tiered system (\$10,000 for veterans whose income is at or below OPM’s limits but \$5,000 for veterans whose income is between 100% and 125% of OPM’s limits).

**Bethel offers veterans an exemption of either 10% or \$10,000, whichever is greater

As shown in Table 4, towns most commonly reported using the OPM-set income thresholds, but 20 towns set higher thresholds (most commonly \$25,000 above OPM’s thresholds). Two municipalities (South Windsor and Watertown) reported income limits below what OPM establishes (i.e., the statutorily set minimum).

*Ledyard reported having a two-tiered system (\$10,000 for veterans whose income is at or below OPM's limits but \$5,000 for veterans whose income is between 100% and 125% of OPM's limits).

Exemptions for Veterans With Disabilities

Veterans (and service members) with certain disabilities who reside in the state are entitled to a property tax exemption. Municipalities may adopt certain additional exemptions for veterans who qualify for the state-mandated exemption.

State-Mandated Exemption

Municipalities must provide an exemption to veterans who:

- have a VA disability rating of 10% or more ([CGS § 12-81\(20\)](#)) or
- receive a pension, annuity, or compensation from the United States due to the service-related loss of their arm, leg, or equivalent (“federal compensation”) ([CGS § 12-81\(20\)](#)).

The state-mandated exemption for veterans with disabilities consists of three parts:

1. an amount based on the veteran’s disability rating or federal compensation;
2. an additional severe service-related disability amount, if applicable (e.g., for loss of one or both arms or legs); plus
3. an income-based exemption equal to:
 - 50% of the base exemption (i.e., the disability rating or federal compensation-based amount plus the severe-service disability amount, if any) if the veteran’s income exceeds a set income threshold (see below) or
 - twice the base exemption if the veteran’s income is at or below the threshold ([CGS § 12-81g\(a\)&\(d\)](#)).

For 100% disabled veterans, the income threshold is \$18,000 for unmarried veterans and \$21,000 for married veterans. For all other qualifying veterans, the income threshold is the higher, OPM-set amount (see Summary above) ([CGS § 12-81g\(a\)&\(d\)](#)).

100% Disability Municipal Option

For veterans with a 100% disability rating and income below a set threshold, a municipality may provide an income-based amount equal to three times (rather than two times) the disability-rating base amount under [CGS § 12-81\(20\)](#). The income threshold for this optional exemption is \$21,000 for unmarried individuals and \$24,000 if married ([CGS § 12-81g\(b\)](#)).

The base amount set in statute for veterans with a 100% disability rating is \$3,500, meaning this municipal option would provide veterans with incomes below the threshold an exemption of \$10,500 (rather than \$7,000). However, certain towns must provide a higher base amount, which increases the optional exemption amount accordingly (see Increase in Exemption Amounts After a Revaluation below).

Of the 117 towns that responded, 22 towns indicated they have implemented this alternative.

Veterans With a Disability Rating or Federal Compensation

Municipalities may provide an additional property tax exemption to veterans who have a disability rating or receive federal compensation and have incomes below a municipally set threshold. The municipality may use the OPM-set threshold (see Summary) or set a higher one. If the municipality chooses to provide this exemption, the exemption must be at least \$3,000 and increased following certain revaluations (see Increase in Exemption Amounts After a Revaluation below) ([CGS § 12-81f\(b\)](#)).

Of the 117 towns that responded, 9 towns indicated they have implemented this exemption, however OLR was unable to independently verify adoption in each of these towns.

Specially Equipped Motor Vehicle

The law allows a municipality to grant a property tax exemption (a uniform percentage of the assessed value) for one motor vehicle owned by a veteran who qualifies for an exemption based on his or her disability rating, federal compensation, or severe service-related disability, under [CGS § 12-81\(20\)](#) or [CGS § 12-81\(21\)](#). To qualify, the vehicle must be specially equipped to accommodate the veteran’s disability ([CGS § 12-81h](#)).

Of the 117 towns that responded, 35 towns indicated they have implemented this exemption.

Table 7: Towns Indicating They Offer the Specially Equipped Motor Vehicle Exemption

Ansonia	Clinton	East Lyme	New London	Seymour	Vernon

Bloomfield	East Haddam	Killingworth	North Stonington	Sterling	Wolcott
Brooklyn	East Hartford	Lisbon	Norwich	Stonington	Woodbury
Cheshire	East Haven	Milford	Prospect	Stratford	

Most of these towns (33 of 35) indicated they exempt 100% of the vehicle’s value. Of the remaining two, Stratford indicated it exempts 95% of the vehicle’s value and Wolcott did not provide a percentage in its response.

Specially Adapted House

The law also allows municipalities to completely exempt from property taxes a veteran’s house and house lot acquired or modified under a federal financial aid program for specially adapted housing for veterans. (A specially adapted house is one outfitted to be suitable for someone who lost his or her limbs or eyesight.) This exemption is only available to individuals with a severe service-related disability ([CGS § 12-81\(21\)\(C\)](#)).

Of the 117 towns that responded, 20 indicated they have implemented this tax exemption.

Other Municipal Option Exemptions

Veterans Ineligible for State-Mandated Exemptions

By law, municipalities, with their legislative body’s approval, may provide a property tax exemption to veterans who have incomes below a municipally set threshold and are ineligible for any of the exemptions for wartime, retired, or disabled veterans. Under this exemption, a municipality may exempt up to \$5,000 or 5% of a property’s assessed value. The municipality may set the qualifying income threshold at the OPM-set amount (see Summary) or a higher amount ([CGS § 12-81jj](#)).

No town indicated it offered this exemption.

Veterans’ Primary Residences

Beginning in 2022, the law allows municipalities to establish an exemption for income-qualifying veterans’ primary residences by a vote of their legislative body (or board of selectmen if the legislative body is a town meeting). The exemption (1) is available to veterans with up to \$50,100 in federal adjusted gross income and (2) equals 10% of the assessed value of a dwelling the veteran owns and uses as his or her primary residence ([CGS § 12-81kk](#)). This exemption is not subject to the law limiting the number of veterans’ exemptions an individual may claim ([CGS § 12-90](#)).

Of the 117 towns that responded, 21 towns indicated they have implemented this exemption, however OLR was unable to independently verify adoption in each of these towns.

Cromwell	East Windsor	North Haven	Shelton	Waterbury	Wolcott
East Hartford	Litchfield	North Stonington			

*Check with your town assessor to verify if the town has voted to adopt this exemption

Increase in Exemption Amounts After a Revaluation

Municipalities must increase certain exemptions if, after performing a revaluation, their grand list increases by a certain amount ([CGS § 12-62g](#)). (A revaluation is the process of periodically capturing changes in real property values.) For municipal-option exemptions, this primarily applies to exemptions for veterans with a disability rating or federal compensation ([CGS § 12-81f](#)). It also applies to the base state-mandated exemption amount for disabled veterans. Increases to this base amount result in increases to the optional exemption for 100% disabled veterans ([CGS § 12-81g](#)).
