Sec. 10. Subsection (a) of section 16-19 of the general statutes is repealed and the following is substituted in lieu thereof (*Effective October 1, 2025*):

(a) No public service company may charge rates in excess of those previously approved by the Public Utilities Control Authority or the Public Utilities Regulatory Authority, except that any rate approved by the Public Utilities Commission, the Public Utilities Control Authority or the Public Utilities Regulatory Authority shall be permitted until amended by the Public Utilities Regulatory Authority, that rates not approved by the Public Utilities Regulatory Authority may be charged pursuant to subsection (b) of this section, and that the hearing requirements with respect to adjustment clauses are as set forth in section 16-19b. For water companies, existing rates shall include the amount of any adjustments approved pursuant to section 16-262w since

the company's most recent general rate case, provided any adjustment amount shall be separately identified in any customer bill. Each public service company shall file any proposed amendment of its existing rates with the authority in such form and in accordance with such reasonable regulations as the authority may prescribe. Each electric distribution, gas or telephone company filing a proposed amendment shall also file with the authority an estimate of the effects of the amendment, for various levels of consumption, on the household budgets of high and moderate income customers and customers having household incomes not more than one hundred fifty per cent of the federal poverty level. Each electric distribution company shall also file such an estimate for space heating customers. Each water company, except a water company that provides water to its customers less than six consecutive months in a calendar year, filing a proposed amendment, shall also file with the authority a plan for promoting water conservation by customers in such form and in accordance with a memorandum of understanding entered into by the authority pursuant to section 4-67e. Each public service company shall notify each customer who would be affected by the proposed amendment, by mail, at least one week prior to the first public hearing thereon, but not earlier than six weeks prior to such first public hearing, that an amendment has been or will be requested. Such notice shall also indicate (1) the date, time and location of any scheduled public hearing, (2) a statement that customers may provide written comments regarding the proposed amendment to the Public Utilities Regulatory Authority or appear in person at any scheduled public hearing, (3) the Public Utilities Regulatory Authority telephone number for obtaining information concerning the schedule for public hearings on the proposed amendment, and (4) whether the proposed amendment would, in the company's best estimate, increase any rate or charge by five per cent or more, and, if so, describe in general terms any such rate or charge and the amount of the proposed increase. If a company fails to provide adequate notice, the authority shall consider the effective filing date of such company's proposed amendment to be the date that the company provides adequate notice to customers, as determined by

the authority. Until the effective filing date, no days shall count toward the time limit for a final decision in this subsection. In the case of a proposed amendment to the rates of any public service company, the authority shall hold one or more public hearings thereon, except as permitted with respect to interim rate amendments by subsections (d) and (g) of this section, and shall make such investigation of such proposed amendment of rates as is necessary to determine whether such rates conform to the principles and guidelines set forth in section 16-19e, or are unreasonably discriminatory or more or less than just, reasonable and adequate, or that the service furnished by such company is inadequate to or in excess of public necessity and convenience, provided the authority may (A) evaluate the reasonableness and adequacy of the performance or service of the public service company using any applicable metrics or standards adopted by the authority pursuant to section 16-244aa, and (B) determine the reasonableness of the allowed rate of return of the public service company based on such performance evaluation, except that no public service company that is an electric distribution company may be allowed a rate of return that exceeds the weighted average cost of capital for such company, as determined by the authority. The authority, if in its opinion such action appears necessary or suitable in the public interest may, and, upon written petition or complaint of the state, under direction of the Governor, shall, make the aforesaid investigation of any such proposed amendment which does not involve an alteration in rates. If the authority finds any proposed amendment of rates to not conform to the principles and guidelines set forth in section 16-19e, or to be unreasonably discriminatory or more or less than just, reasonable and adequate to enable such company to provide properly for the public convenience, necessity and welfare, or the service to be inadequate or excessive, it shall determine and prescribe, as appropriate, an adequate service to be furnished or just and reasonable maximum rates and charges to be made by such company. In the case of a proposed amendment filed by an electric distribution, gas or telephone company, the authority shall also adjust the estimate filed under this subsection of the effects of the

amendment on the household budgets of the company's customers, in accordance with the rates and charges approved by the authority. The authority shall issue a final decision on each electric distribution or gas company rate filing not later than three hundred fifty days after the effective filing date of the proposed amendment. The authority shall issue a final decision on all public service company rate filings, except electric distribution or gas company rate filings, not later than two hundred seventy days after the effective filing date of the proposed amendment.

Sec. 11. Subsection (g) of section 16-19 of the general statutes is repealed and the following is substituted in lieu thereof (*Effective October 1, 2025*)

(g) The authority shall hold either a special public hearing or combine an investigation with an ongoing four-year review conducted in accordance with section 16-19a or with a general rate hearing conducted in accordance with subsection (a) of this section on the need for an interim rate decrease (1) when a public service company has, for the rolling twelve-month period ending with the two most recent consecutive financial quarters, earned a return on equity which exceeds the return authorized by the authority by at least one-half of one percentage point, (2) <u>if it finds, in the case of an electric distribution company, a rate of return that exceeds the weighted average cost of capital for such company, as determined by the authority, (3)</u> if it finds that any change in municipal, state or federal tax law creates a significant increase in a company's rate of return, or **[**(3)**]** <u>(4)</u> if it provides appropriate notice that a public service company may be collecting rates or may have an authorized rate of return which is or are more than just, reasonable and adequate, as determined by the authority, provided the authority shall require appropriate notice of hearing to the company and its customers who would be affected by an interim rate decrease in such form as the authority deems reasonable. The company shall be required to demonstrate to the satisfaction of the authority that earning such a return on equity, having an authorized rate of return or collecting

rates which are more than just, reasonable and adequate is directly beneficial to its customers. At the completion of the proceeding, the authority may order an interim rate decrease if it finds that such return on equity or rates exceeds a reasonable rate of return or is more than just, reasonable and adequate as determined by the authority. Any such interim rate decrease shall be subject to a customer surcharge if the interim rates collected by the company are less than the rates finally approved by the authority or fixed at the conclusion of any appeal taken as a result of any finding by the authority. Such surcharge shall be assessed against customers in such amounts and by such procedure as ordered by the authority.
