Testimony:

Dear Judiciary Committee Members,

I am a life long Connecticut resident and I was employed by UConn for 27 years until my retirement in 2017. In those years the State has never asked me to do anything illegal, I feel the HB 7212 is putting State Employees at risk by hindering ICE carrying out Federal Law Enforcement Activities. This bill puts State Employees at risk but also puts State residents at risk by harboring Illegal Aliens. I am also the First Selectman for the Town but I am speaking as a Town resident. The overflow of Illegals has overwhelmed our State Budget, School Systems, Housing availability and put lives of long residents at safety risks. All of which can be avoided by letting ICE do their job. If someone is killed by an illegal Alien because a State Employee held back information from ICE I believe they could be charged for obstruction of justice, will the CGA be there in court with them? This proposed law is not in the best interest of the law-abiding Connecticut residents.

Respectfully Yours,

Dana Barrow Jr.
