IMPROVING STUDENT ATTENDANCE
SMALL GROUP DISCUSSIONS

Facilitator:
1. Allow max 10 minutes for each question
2. Ask someone to be note taker
3. Allow people from each district to share (if they want)

- What community resources/agencies have you used for attendance issues and have they been successful in helping your students return to school? Or should we say “helping your students improve their attendance?”

- What school based interventions/strategies have you used that have been successful?

- How are you tracking and reporting attendance?

- How are you communicating student attendance to parents, both before it is an issue and once it becomes an issue?

- What do you see as challenges/gaps or what do you most need (what’s missing)?
