To State ECS Task Force:

I am writing to let you know that we think the current state ECS funding formula is completely discriminatory. It's unfair against Norwalk because our city lines are placed within Fairfield County. Norwalk is not similar to our neighbors Darien, New Canaan and Westport in many ways.

Every town in Connecticut should be treated equally. Every child should be given the same support. It's simply not fair to give less to child who lives near wealthy neighbors.

I look forward to seeing a fair review.

Sincerely,
