

Jim Andrea Krajewski, my brother in law is  
Ken Krajewski who has been alienated from his  
two children as well as the family. We had  
many family gatherings which the children  
looked forward to. There was evidence when  
I went to the court that (gal) Mary Bergamini  
was not for the children as she coached their  
mother when she was on the stand with  
nods and motions as well as lies were being  
told no accountability. Ken is a loving, caring  
father and outstanding citizen with strong  
family ~~his~~ beliefs. Visitation orders were broken and  
I was told to contact the children when I did I  
was told you have the wrong phone number not true  
no accountability

The family has stood by Ken throughout  
the horrible fight to see his children. He has had to  
borrow money as one physiological evaluation wasn't  
good enough he had to have a second one per  
the court he did what he was asked is this fair?

He has done nothing wrong he deserves to  
have his children in his life with my own  
eyes I witnessed in family court nothing but  
a mockery something has to be done.

In closing these children need their  
father and should not feel abandoned.
