Testimony:

To Connecticut Correction Advisory Committee.

I Antron Gore, give my full support to Barbara Fair as the most qualified person for the job of Connecticut Correction's Ombuds position. Mrs Fair has dedicated her life, time and resources into bettering conditions for inmates and most importantly families of the incarcerated inmates. She has seen both sides of the spectrum of the pain inmates and families of inmates go through for more than a decade before this position became available. No other candidate has taken the steps she has taken to see and experience the conditions and other country's jail operations to understand what could and could not be better for Connecticut prisons. Ms. Fair is unbiased and her only concern is that a persons natural liberties are still being humanized even to persons that has been convicted of serious crimes. I thank you for your time, and hope you choose to vote Ms. Fair to this position. She has the support of the inmates and the community, which is most important to start and continue change for the betterment of the Judicial system, the inmate population, and community the inmates return to upon release.

Thank you

Antron Gore
