Testimony:

Good morning members of Connecticut's legislature,

I want to use my voice to say that I am opposed to Barbara Fair's nomination. I immigrated legally to the United States from India and this is a beautiful country. Connecticut is a wonderful state. Therefore, our freedoms are at risk with Ms. Fair's nomination. She has supported the Marxists of Black Lives Matter. The police and corrections need more support not less. Please, reject this nomination! God bless America, the best country in the world.
