**Testimony:**

Good evening, my name is Carrie World. I've had the opportunity to become acquainted with Attorney Kenneth Krayske while handling the case of my son Wayne World. During this time I was well informed and kept up to date on all matters relating to his case. In the process of the investigation into the case many lack of health treatments were brought out. There needs to be someone to be a voice for those who are not heard. Attorney Krayske was a big voice in this case, and I hope you would consider him to be the voice of the unheard. Thank You
