Testimony:

I support Kenneth Krayeske for the position of Correctional Ombudsperson. Mr. Krayeske represented myself in regards to my brother who died in prison as a result of neglect healthcare of the inmates. I think he will be excellent for the position because he cares about the welfare of the inmates in the state of Connecticut. He also has extensive knowledge of how the inmate healthcare system works and what needs to be done to further prevent tragedies such as the one my family had to experience. There isn't a better candidate to help steer the ship in the right direction.
