Governor Lamont and Correction Advisory Committee Members:

I am incarcerated at York Correctional Institution. Please appoint Barbara Fair as Ombudsperson. We need someone we can turn to when YCI decides to mistreat us. I came into York on 11\2\2022 and I have been asking to see a cardiologist since I came in. I am a high risk cardiac patient. I have had 5 heart attacks and I have 4 cardiac stents. There is no excuse for them to not allow me to see a heart doctor. I keep being told that they are going to bring me but its been 14 months!!!! Also APRN Tara Hood discontinued many of my meds and altered my heart meds without my cardiologist's approval. We need someone to help us address these issues now before it's too late. I have a family to go home to. I need help now. I shouldn't have to wonder if I'm going to live long enough to see parole in one and a half years because YCI decided not to allow me to see a specialist. Ms Fair could make all the difference in the world. This situation is not OK and it is far from the only medical issue, there are so many other ther issues that need to be dealt with. thank you
