NA

**Testimony:**

Dear Correction Advisory Committee:

My name is Eugene Walker # 298335 and I have been incarcerated for eleven years. I would like for you to appoint Barbara Fair to the position of correctional ombudsperson. She has been a long time advocate for people that are incarcerated. During my time in jail I have had to have brain surgery due to an untreated sinus infection that traveled to my brain. Now I have a seizure disorder and as recently as December 31 2023 I suffered a seizure. Till this day my medication is not being administered properly witch I believe is the cause of me having seizures. We are a marginalized and disenfranchised population and need a fair and impartial person to represent and add some checks and balances. I hope that you give my recommendation some serious consideration and I thank you for creating this new position. This is a step in the right direction for better conditions of confinement.

truly yours,

Eugene Walker
