Testimony:

I Heidi Donovan vote Ken Krayske for your department of corrections ombudsman position. My story is a sad one with loss of my father due to poor healthcare and neglect within the department of corrections ken advocates for my family still to this day. My father Mark Jansen suffered for a long period of time within the department with no help or healthcare team to listen until it was to late . I called the prison numerous times with no response or help for my father , my father had a tumor the size of a softball in his brain which lead to two serious surgeries 1 resulting in the loss of my fathers life . Ken Krayske is the man for the job and the man who will go above and beyond for our state . Mr Ned Lamont please make the right decision. May god bless you.
