Recommending Barbara Fair for Correction Ombudsperson

To Governor Lamont and the Correction Advisory Committee:

My name is Jay-Quan Dixon and I'm currently incarcerated in MacDougall-Walker. I'm writing and submitting this on behalf of Mrs. Barbara Fair running for the Connecticut Corrections Ombuds position. Mrs. Fair has done extraordinary work when it comes to the incarcerated population and rehabilitation of the prisoners. I believe she would be the best candidate for this position because she is informative, dedicated and fair to helping the prison system as a whole. She works hard to make the facilities safe for both staff and inmates. She focuses on our physical and mental health and she actually puts in the ground work to show her passion. She is consistent and committed to her work and has the insight and knowledge for this position. Throughout my entire incarceration I've been troubled, and problematic and in a really dark place. But since Barbara Fair's work and her dedication for the Ct to stop solitary confinement, I have actually been a better prisoner and individual. I have been ticket free for almost a year which is my longest period of time doing so and I am now mentally in a better place and focus on my rehabilitation back into the community. I give thanks to Mrs. Fair and her hard work and I know once she's in position she will help many more. This is my recommendation on her behalf.
