Recommending Barbara Fair for Ombudsperson

To whom it may concern

Hello my name is Robert Spann I'm currently incarcerated at Cheshire C.I. I'm writing to the committee and governor Ned Lamont fully on board for Barbara Fair being our ombudsman, fact of the matter is she already has the experience and background to do the job. We need someone that is blunt but fair and a strained shooter, with so much confusion and one sided veiw of what is going on inside these prisons ,we as prisoners but human beings first need a voice.

Barbara fair has shown with her continues hard work to broadcast the truth this is not just what we need but also with the DOC needs because if they are, speaking of the officers doing their job she going to let it be known if they're not then actions need to be taken to hold everyone accountable. I'm not saying that all officers are bad that's just not true but when they don't t speak up and watch a bad apple do wrong its just as bad . The officer want to be safe we want to be safe, what is fair is fair, we as humans should not be judged on mistakes because it just doesn't define a human being. Barbara Fair is someone that knows that and is willing to speak up and we all need to respect that , I am all for fair treatment. This is the woman for the job thank you for your time.
