NA

Testimony:

To Governor Ned Lamont and members of the Correction Advisory Committee:

I believe Ms. Fair should be appointed for the ombudsperson position because she will be a very dedicated individual to the cause of justice for us inmates who has to deal with some of the staff who like to act " badge heavy ". She knows that even though we have to pay our debt to society, it should be free from abuse. I was sentenced to be out of society, I wasn't sentenced to be looked down upon as a piece of trash.

I believe Ms. Fair would make a great ombudsperson because she will look for the truth even when some of the inmate population will try to tell her anything. I believe she'll tell the inmate population that there isn't any truth to their claim, meaning that staff will be able to trust her and will not think that she's only out to jam up staff members. She's the right person for the job, her qualifications makes her stand above the rest.
