I Trajuan Washington, want to support Barbara Fair for the new office of correction ombudsperson. I think she would be a good fit to hold Doc and their officers accountable for their actions as well make sure that all inmates are in a safe environment, with the sleeping on the job and the over Eger to make life a living hell we need someone not only over see but to make changes, with Ms Fair's record of already showing her willingness to fight and help make changes we know that she would be a good fit for the job.

Respectfully submitted,
Trajuan Washington
