Testimony:

This testimony is in support for Barbara Fair for the position of the ombudsperson for the Correction Advisory Committee. Barbara Fair is the perfect candidate for this role and it is proven through her past work. As an organizer in this state, I know Barbara personally from events through her organization and her astounding legislative work. I also have friends who are currently incarcerated that admire and support Barbara immensely for her work with them directly or her advocacy that has benefitted their lives indirectly. Barbara is an integral part of our state's society and she has and will continue to strive to make our state a more caring and just place for everyone. That is why she will be able to do such good in this position, serving to steer the Advisory Committee in the correct direction and to also serve as the optimal go-between for all parties that will be involved in this process.
