Members of the reapportionment committee,

I previously wrote to you on behalf of the Derby Democratic Town Committee. I'm writing you today on my own behalf. As you well know the city of Derby is the small city in the state of Connecticut. Yet we find ourselves split into three house districts. The 104th, 105th and 114th state house districts. In all three districts we are without a doubt the smallest part of those districts. As a result of this our voice in Hartford is continuously diluted. I would respectfully ask this committee to let Derby have its voice in Hartford by letting us have 1 House district.

Respectfully,

Aniello Malerba III
