The 4th congressional district of Greenwich to Bridgeport must stay intact. As a longtime resident of Shelton, Connecticut which is also in the 4th district, I know the importance of the interdependence of our towns and cities. I go to Bridgeport frequently for medical and business appointments, entertainment and educational opportunities. Therefore, Bridgeport's challenges and successes impact my life. In addition, I commuted to work in Stamford every day for 15 years, so I needed to drive through Bridgeport or take a train. Therefore, I know from direct experience that we need to work as a unit to tackle transportation issues.

Sincerely,
