Strategic Plan:
“Achieving Positive Youth Outcomes for Safer and Healthier Communities: A Shared Vision for Connecticut’s Juvenile Justice System”
Strategic Plan Process Recap

• Initial development:
  • Discussions at full JJPOC meetings, Development and distribution of a survey via Survey Monkey
  • Meetings with the co-chairs of the committee and workgroup co-chairs.

• July 2018 Presentation to JJPOC:
  • Goals, Objectives and JJPOC structure

• Sept-Nov 2018
  • Workgroup co-chairs and community partners identified strategies, indicators, and milestones.
  • This plan was created with input and feedback from all JJPOC co-chairs and workgroup members.
JJPOC 2019- 2021 Strategic Plan

• In this presentation the co-chairs of the workgroups will report on:
  • The four goals of the strategic plan.
  • Examples of strategies, indicators and milestones of each goal.
  • Strategic Plan should be considered a “living document” that can be developed further over the course of the three-years.
Goal 1
Limit Youth Entry into the Justice System

Connecticut is committed to preventing youth from entering the formal justice system by appropriately serving them by alternative means or systems (e.g. community-based diversion, restorative justice approaches, mental/behavioral health services, etc.) in order to achieve better outcomes for youth.

• Primary Measures
  • Number of youth entering Juvenile Justice system
  • Number of youth participating in diversion programs
  • Number of youth successfully completing diversion programs
  • Number and percent of youth participating in diversion programs that have justice involvement 12 months later (data development agenda)
Goal 1 Objectives

A. Increase and assess both the quality and availability of diversion programming

B. Ensure that youth have appropriate supports from youth-serving agencies (schools, Department of Children and Families, community providers, etc.) as viable alternatives to the formal juvenile justice system, including but not limited to:
   - Substance use services, mental and behavioral health services, child protection and welfare services, educational services (including special education), other services for youths with disabilities, and homelessness services

C. Identify sustainable funding for the Community-Based Diversion Plan and School-Based Diversion System through a variety of resources

D. Reduce inappropriate referrals to the juvenile justice system

E. Apply restorative practices and principles in diversion programming

Goal 2
Reduce Incarceration

Connecticut is committed to ensuring that youth who are committed to confinement are held accountable through individualized rehabilitative services, treated with fairness and dignity, and offered the support needed to mature into healthy and productive members of our communities.

• Primary Measure
  • Number and Percent of justice-involved youth that are incarcerated (pre and post-adjudication)
Goal 2 Objectives

A. Support efforts to create and operate developmentally appropriate, small, residential settings (in lieu of formal, adult-like correctional settings) that can provide therapeutic care for Connecticut’s youth who cannot succeed in less restrictive environments (regardless of whether the youth was prosecuted in the juvenile or adult system).

B. Improve the quality and availability of behavioral health care services and education and vocational training provided to juvenile justice system-involved youth placed out of home.

C. Conduct an exploratory study to determine how other states detain transferred youth under 18 pre- and post- trial (where are they held, what agency has oversight of the facility, what model(s) of interventions are used etc.)
Goal 2 Objectives

D. Achieve safe and humane conditions of confinement that are culturally responsive, conducive to healthy development and responsive to special populations (e.g. gender, sexual orientation)

E. Increase and improve re-entry support and services for youth

F. Ensure that probation violations are handled in a developmentally appropriate manner

G. Provide evidence-based, developmentally appropriate responses as well as positive incentives to youth in the justice system

Goal 3
Reduce Racial and Ethnic Disparities of Youth in Connecticut’s Juvenile Justice System

Connecticut is committed to eliminating racial and ethnic disparities of justice-involved youth to ensure fairness and equity for all youth.

• Primary Measures
  • Relative % rates of justice involvement
  • Relative % rates of disposition
  • Relative % rates of service provision by type of service
  • Relative % rates of incarceration
Goal 3 Objectives

A. Ensure that race and ethnicity data and the strategies to address disparities are interpreted and developed in true partnership with communities of color

B. Ensure the collection, review and public reporting of race and ethnicity data at each important point of contact in the juvenile justice system

C. Enhance and support opportunities for localized review (community oversight) of school and police practices

D. Promote the use of racial justice assessments of policy proposals that impact juvenile justice

E. Identify opportunities where inequities within the juvenile justice system can be effectively addressed

Goal 4
“Right-Size” the Juvenile Justice System by Setting Appropriate Lower and Upper Age Limits

Connecticut is committed to focusing its juvenile justice system to the appropriate age range of youth to provide developmentally appropriate and effective services for both the youngest youth (lower age of jurisdiction) and the older youth (including emerging adult) in order to improve individual outcomes and increase public safety.

• Primary Measure
  • Number and % of justice-involved youth, by age categories
Goal 4 Objectives

A. Eliminate or reduce the barriers in the justice system that prevent or hinder youth in their ability to mature and “age out of crime” and lead productive, healthy, law-abiding lives

B. Review research and develop recommendations on developmentally appropriate lower and upper age limits of juvenile justice jurisdiction
Goal 4 Objectives

“Right Size” the JJ System, by setting appropriate lower age limits
