JJPOC and TYJI should partner to create an MOU with each 911 jurisdiction to receive, review, and analyze these data.
- B. JJPOC should collaborate with CHDI to review similar data collected on 211 calls made by public schools.

Education Workgroup Recommendation 3:

A. Public Act 21-174 be amended to provide greater specificity regarding the way DCF will oversee educational services being provided to students housed in juvenile detention facilities operated by DOC and CSSD. Most of the edits clarify that DCF will be overseeing the education of these students and not directly delivering the education. It also makes several technical changes indicating that this is an administrative unit, not an education unit to distinguish it from USD #2. (Addendum C)

Suspension and Expulsion Subcommittee Recommendation 4:

4. CSDE shall, in conjunction with SBDI and other experts in the field, develop a program of training in effective methods of addressing within the school environment the underlying issues of students who present with disruptive or dangerous behavior as a means to reduce the incidence of exclusion of these students from school. Such training should focus initially on students in Grade Two and younger and should include:

- a. Trauma-informed and trauma sensitive classroom techniques
- b. De-escalation, redirection and managing trauma.
- c. Mental-health first aid.
- d. Social and emotional learning.
- e. Restorative practices.
- f. Interpersonal and environmental triggers.
- g. The function of inappropriate behavior.
- h. The identification, measurement, and tracking over time of behavior.

4A. CSDE should identify and or develop guidelines for a supportive framework for support and peer-to-peer coaching for the purpose of properly disseminating this content throughout each school. Such a framework could include the designation of a formally identified, district-level staff to oversee the diffusion of training,

technical assistance, and the peer-to-peer coaching model. The district-level staff will work with a school-based staff at each school site to implement the framework and to serve as the school lead in developing peer-to-peer coaching skills.

Districts should review its existing staffing capacity (i.e., school climate coordinator, SBDI Leader in Residence) to determine if additional capacity resources are needed to fulfill this responsibility. All available funding sources should be considered (i.e. Alliance funding, Recovery funding). If additional capacity resources are needed CSDE shall adequately fund district capacity need.

CSDE should, primarily utilizing existing materials, promptly publish guidance on the implementation of alternative in-school disciplinary practices, strategies, and interventions to support students and school personnel.
