TESTIMONY

To: Spending Cap Commission and CT General Assembly

From: Peter Latincsics 97 Trask Road Willington CT 06279

Date: 4/18/2016

I wish to express my strong support for strengthening the constitutional state spending cap. No portion of the state budget should be excluded from the cap including spending on education, hospitals & medicaid or debt service. Votes to exceed the cap the general assembly or executive action by the governor's office should be prohibited. State aid to towns should be automatically reduced in any fiscal year across the board when the state fails to meet spending cap requirements.

Failure to address the spending cap in a meaningful way will result in the continued flight of businesses and residents from out state. The spending cap is an essential first step in reducing the size of state government and fiscal sanity for our state residents.

Sincerely

Peter Latincsics  
97 Trask Road  
Willington CT 06279
