

These task forces are long overdue and BUT are missing an ingredient. That ingredient is Bullying. History probably would show that the MOST OF THE shooters were bullied or made fun of and for them retaliation is the only way.

Look into the history, profiles and backgrounds of the shooters over the last 5-8 years. Look at their home lives, access to guns, difficulties in school, different from other kids, etc., etc

I'm sure other states are ahead of us, so let's learn from them and not start from ground zero.

What is your time line to have a REAL action plan? Do you have the right people on the team?

DO IT RIGHT THE FIRST TIME.
