

To whom it may concern,

I am the mother of two school age children. I believe armed guards in schools are the best protection against mass shootings like the ones that happened at Sandy Hook and Virginia Tech. We protect people at airports with armed guards. We protect money with armed guards. I believe we should protect our children in the same way. Even if all guns were banned, those seeking to do harm with a gun would find a way to do so. The best defense against this kind of insanity is armed guards protecting our children.

Sincerely,  
Sarah Ferrizz
