

As a law abiding citizen, Father, business owner and gun owner I have become increasingly concerned with several bills currently being considered by our legislature.

It seems that law abiding citizens are being targeted by legislators that are clearly drafting laws to satisfy their personal idealistic goals. Punishing lawful gun owners with restrictive laws that will do nothing to deter crimes is wrong. This affront to our constitutional rights by legislating around our rights will not go unanswered.

I am also a voter and I will speak loudly when the next election comes around. My vote counts too.

I do not support any new gun legislation that does nothing to reduce crime and keep our children safe. I will support any legislation designed to protect our rights as American Citizens.
