TO WHOM IT MAY CONCERN.

I'm writing this letter to voice my opinion on the matter of our second amendment regarding gun rights. I work as a Forfeiture manager / bond agent/ Bail Enforcement Agent and carrying a fire arm is accentual in my profession allows me to protect myself and partners in my group, this allows me to do my job and be able to go home at night to my family. I also shoot for fun and train with various guns and rifles.

My son served in the Marines for 5 years and was stationed in Iraq for 18 months defending those that could not, carrying the same weapons you guys are trying to ban, the same weapons used to defend the capital and all of the people working in it. Why is it ok to defend all of you but not ourselves?

My son and all those in the armed forces put their life on the line for their country with pride and honor protecting our second amendment right, and to defend all not just the so called wealthy or self proclaimed important individuals.

I deeply regret what has happened in the last couple of years to all of those who were killed in one state or another by someone who had bad intentions; these individuals with bad intentions will not care what the laws are. They are out to do harm and will not care who or with what they inflict it.

There are people stabbed and yet we still sell knives, people run over intentionally my cars yet we still mass produce them, people bludgeoned to death with a baseball bat and yet we have little league teams all over were our kids are playing with them, you can't blame the object .

Banning or limiting the magazines or weapons is not the answer but just a way for politicians to make themselves look good, and seem like they are doing something besides sitting in the chair looking for their next so called good cause.

Second Amendment was put into place to allow us to defend ourselves with the most modern weapon of our time; we cannot and will not allow this to happen.

Taking law abiding citizens and turning them into criminals because someone else decided that we cannot protect ourselves is unconstitutional and goes against everything our country stands for.

Thank you, Alex Alicea
