

Instead of putting armed persons in the schools - use police/security DOGS.

Place 5 dogs in various places in the school - one at the entrance. If someone attacks the first dog - the others are trained to come to it's aid and can subdue the attacker.

Now, this is much much cheaper than hiring an armed person - all they need is food, walking and attention - and kids love dogs and they wont seem as threatening as an armed guard.

Thank you!!

Guns suck!!!
