

Dear Ladies and Gentlemen,

I am writing to plead with you to pass legislation quickly to prevent the sale of guns, to civilians, that accept more than 10 rounds of ammunition. Guns like this are clearly not for personal safety or sport. It is clear from the many gun crimes in the US, including Newtown, that the sale of these guns to civilians is hurting our country, and now specifically American children. There is no way the sale of these guns helps our country. Please lead the way in taking our country away from this barbaric, violent path.

Thank you
Andrea Bates
