

Testimony to the Bipartisan Task Force on Gun Violence Prevention and Children's Safety.

As a former Marine Scout Sniper I have had the honor of serving my country. I have been around firearms for many years and own several for hunting, sport, and home defense and have done nothing wrong to warrant restrictions on my firearms. The same is to be said for many other gun owners. To be punished for other peoples actions is insane. I understand the need for concern for our childrens safety I have two young girls of my own. Changing gun laws will not stop violence, guns don't kill people people kill people. Even if all firearms were banned there would still be guns on the streets and other items used to take people's lives.

We should put police officers in schools something along the lines of making our communities safer.

Nothing will change by passing a bill to restrict firearms it will do nothing but make hard working Americans feel violated of their rights and cost everyone a lot of money and aggravation
